## BeCyPDFMetaEdit

Update the PDF metadata and XMP in one tool. Save your PDF documents with a realistic preview. The application works in color and mono mode, and supports all popular programs as the standard PDF and XMP converters. It can create PDF/A-1b and PDF/X-3 documents. The software includes a previewer for editing and viewing the saved document. You can even lock metadata to avoid data loss. BeCyPDFMetaEdit can successfully process over 4,000,000 PDF files. Thus, there is no need to worry about exceeding the processing capacity of the system. Feel free to share and share this tool with friends and fellow freelancers, and let's all enjoy free PDF editing. The application for editing PDF metadata was first released in version 2.2 in October, 2011. At the moment, it's available for Windows XP, Windows Vista/7, Linux, Mac OS 10.6 and 10.7. Key Features Editing your PDF documents with BeCyPDFMetaEdit has never been easier. Depending on the version, you are able to edit (1) PDF metadata; (2) XMP; (3) document layout; (4) page titles; (5) page titles with subitems; (6) bookmarks; (7) transitions; (8) security settings. BeCyPDFMetaEdit is capable of adding page labels, entering custom page layouts, modifying page order and switching between the monochrome and color modes. Moreover, you can turn off the toolbar and disable menu bar to reduce the visual disturbances. You can even automatically convert document to PDF/A-1b format, and then make some adjustments, e.g. deleting unnecessary objects and rearranging texts. Configurable Settings All the most important settings are available in the interface and accessed by using the tabs on the toolbar or via the context menu. However, you can also adjust them in the XML configuration file (xmp-file). These settings are listed below: Appearance: The color of the toolbar and the menu bar can be adjusted (visible or hidden) in the View menu. An additional option allows hiding the navigation bar on the first page (this can be useful if you want to display all of the entries in the document on the first page). Bookmarks: This is the only tab in which it is possible to add new bookmarks
