Works with Alexa, Google Analytics, Google Tag Manager, Facebook Ads Manager, and Optimizely.Introduction The use of tablets and mobile devices have increased dramatically in recent years, with the devices now being used for anything from taking a photo to watching a video. Thus, due to the demand of the consumers, the importance of the industries concerned with security of tablets and mobile devices has increased proportionally with the growing trend. In this report, we are going to show you a way to check and monitor the usage of tablets and mobile devices on daily basis. The app is named Tresor, and you can download it from the Google Play Store. The main functionality of the app is that it can detect the amount of time you spend using a tablet or mobile device. For instance, Tresor can detect that you used your tablet for three hours in the last two days and then it will ask you whether you want to adjust the cost or not. Tresor will also help you to prevent your mobile device from putting too much in your data plan or even cellular plan for that matter, and Tresor can do so by monitoring your device. Tresor has now been downloaded more than 17 million 6d1f23a050
